Bert Van Quaethem

SOFTWARE DEVELOPER

TECHNICAL SKILLS

● = *Proficient*
○ = *Basic Experience*

Programming Languages
- ● *C++*
- ● *C#*
- ○ *Python*
- ○ *HTML*
- ○ *CSS*
- ○ *JavaScript*

Game Engines
- ● *Unreal Engine*
- ● *Unity*

Source Control
- ● *GitHub*
- ● *Perforce*

SOFT SKILLS

Stress-resistant
Flexible
Decisive
On-time

LANGUAGES

Dutch - *Mother tongue*
English - *Professional Proficiency*
French - *Basic*

HOBBIES

Videogames
Boardgames
Movies
Basketball
Reading Books

PROFILE

I graduated from Howest DAE as a Game Developer and am enthusiastic about starting a career as a software developer or gameplay programmer.

During my studies at Howest, I received very practical training in the world of Game Development. This approach has increased my passion for software development and motivated me to work in a problem-solving manner. Whether I end up in the gaming industry or somewhere else is less important to me. My main goal is for my work to make a meaningful contribution to society.

EDUCATION

Professional Bachelor: DAE – Game Development
Howest Kortrijk | 2022 – 2025

- *Graphics Programming*
- *Gameplay Programming*
- *Engine Programming*
- *Tool Development*
